

2. YOU SHINE

You taught me how to laugh, how to love
Be myself & make a life I can be proud of
Whenever life's a bumpy ride
You are always on my side
The world's a brighter place because you shine

You're my hero
My candle in the dark
You shine, you shine, shine
Like fireflies in an old fruit jar
A lighthouse
The Northern Star
Here in my heart
You shine

My lantern in a hurricane, that's your style
Quiet strength, a Mona Lisa smile
My high beams on a country road
Light the way, share my load
The world's a brighter place because you shine

My sunshine on a cloudy day
My ray of hope & come what may

Like fireflies in an old fruit jar
A lighthouse
The Northern Star
Here in my heart
Here in my heart
Here in my heart
You shine
