

4. Higher Ground

I've been on this road too long
I've been on this road too long
This heart has seen some better days
Gonna wash my blues away
On higher ground
On higher ground

Higher ground, higher ground
When I'm looking up
I know you're looking down
Higher ground, higher ground
With a little bit of love, a little bit of prayer
We'll get there

Gonna put my faith in you
Gonna put my faith in you
Gonna give more than I get
Live a life without regret
On higher ground
On higher ground

Higher ground, higher ground
When I'm looking up
I know you're looking down
Higher ground, higher ground
With a little bit of love, a little bit of prayer
We'll get there

*Give me something to believe
Something I can hold on to
I need to know when I fall down
There's you on higher ground*

Higher ground, higher ground
When I'm looking up
I know you're looking down
Higher ground, higher ground
With a little bit of love, a little bit of prayer
We'll get there
